## Summary

---

Results-oriented Mobile Application Developer with over 3 years of experience in Android and iOS development, specializing in Flutter for cross-platform solutions. Proficient in Agile methodologies, CI/CD processes, and performance optimization to deliver efficient, high-quality applications. Skilled in enhancing user engagement and aligning development with business goals through collaborative and innovative approaches.

## Skills

---

Dart, Kotlin, Swift, Flutter SDK, Android SDK, iOS SDK, Git, GitHub, Firebase, SQLite, Azure, Severpod, GetX, Provider, Bloc, Figma, Zebra SDK, Postman, Azure DevOps

## Work Experience

---

### Accenture India Private Limited

Sep 2021 – Present

#### Packaged App Development Analyst

- Enhanced Android app performance by 80% through optimized code and data handling techniques, leading to boosting load times and stability, positively impacting user retention.
- Improved CI/CD pipeline using Azure DevOps achieving bi-weekly releases with zero downtime, which facilitated faster feature deployment and Agile workflow adoption.
- Integrated RESTful APIs and SQLite databases, achieving a 30% boost in responsiveness and user satisfaction, contributing to enhance UI and retention rates.
- Designed modules for Zebra device communication via Wi-Fi and Bluetooth, reducing data entry errors by 60% and increasing data accuracy, streamlining business operations.
- Implemented Git version control and collaborative workflows, resulting in efficient code management and seamless teamwork, significantly reducing conflicts and enhancing productivity.
- Applied Agile methodologies, participating in sprint planning and daily stand-ups, to ensure alignment with project goals and deadlines, which boosted team collaboration and project tracking.

## Education

---

### B.Tech in Computer Science and Engineering

Mahatma Gandhi Mission's College of Engineering

Aug 2017 – Aug 2021

Nanded, Maharashtra

## Projects

---

### Retail Domain Mobile Application

- Led migration from Xamarin to Flutter, reducing load times by 50% and enhancing user retention by 35%, enabling a modern and scalable application.
- Developed Ticket Creation and Transfer functionalities with a 98% accuracy rate, which improved operational efficiency and customer service quality.
- Utilized Android native components to expedite data processing by 40%, optimizing the app's ability to handle large data loads and meet high-performance requirements.
- Coordinated with cross-functional teams, decreasing design approval timelines by three days, ensuring development cycles met deadlines.
- Refined timeout and data flow mechanisms, leading to a 45% improvement in app reliability, creating a smoother user experience and higher engagement.
- Demonstrated proficiency in Figma for UI/UX mockups, creating intuitive interfaces that contributed to increased user satisfaction and positive feedback.

## Certifications and Achievements

---

- Accenture Rising Star Award-2022
- Microsoft AZ-900 Fundamentals
- Winner in Internal SIH-2020
- Gem of MGM Award-2020
